PUBLIC LIBRARIES 2020

Library as a Theatre of Issues

The theatre will showcase **people and their ideas/solutions**.

Each idea or cluster of ideas for the future will be visualised and dramatized as an **explosive exposition** using the entire surface of the theatre and deploying sound, effects and sense of movement to **bring the ideas to life**.

Cut-down & adapted versions can then be amplified via social media.

It is sort of the Inception Blackboard meets Da Vinci's exploded engineering drawings, but in multimedia.

There are no pictures cos the closest this has been done is Harry Potter and the Cursed Child!
